ABOUT ME

Full-stack developer with over three years of experience in building dynamic, responsive web applications and more than one year of professional experience in mobile application development. Skilled in designing and developing scalable systems, integrating APIs, and delivering high-performance, user-friendly solutions.

Strong expertise in problem-solving, system reliability, and maintaining clean, high-quality code. Experienced in contributing to both frontend and backend development across modern application stacks.

A collaborative team player with experience working in cross-functional teams, committed to continuous improvement and delivering impactful, scalable digital products.
